SystemSpecs

The Union of two Systems in Spectrum

In 1991 SystemSpecs and Systems Union entered into a business alliance for the marketing and support of SunSystems in Nigeria.

For SystemSpecs this was an opportunity to move Nigeria into the league of countries where the beneficial interplay of information technology, business and society becomes an everyday reality. Systems Union on the other hand saw the alliance as an opportunity to enter into the Nigeria market that then already had about 5 multinational companies running the SunSystems accounting software.

Working with its foreign affiliate, SystemSpecs has been developing local skills required for the successful support of SunSystems. Today it is the leading new breed computer software firm in Nigeria. It is managed by a team of experienced systems professionals, chartered accountants and seasoned management hands who appreciate the value of accurate and timely financial information to modern day business decisions of organizations.

Over the years, SystemSpecs has achieved grooming the SunSystems clientele base from about 5 in 1991 to over 70, all spread across various industrial sectors. It is in recognition of these early achievements that Systems Union conferred the status of Principal

Channel Partner on SystemSpecs.

Earlier in the second year following SystemSpecs take-off, she won the Systems Union's Prestigious Top African Agent of the year award. SystemSpecs also was elevated in 1994 to the position of a SunCenter in recognition of its commitment to Systems Union and SunSystems as evidenced in the increased number of SunSystems users in Nigeria. SystemSpecs also won the African Agent of the year awards in 1998 and 1999.

Systems Union has understandably accredited SystemSpecs as a PQIS (Professional Quality Implementation Services) user site. PQIS is a project management methodology adopted for use by Systems Union by all its accredited agents for the professional deployment of SunSystems to organizations.

This is a feat that SystemSpecs is proud of and has a strong commitment to continue to improve upon over time.
