

## Remita remains Nigeria most innovative. . .

**J**ohn Obaro, MD SystemSpecs has described Remita as one of the most innovative e-payment solution at the just concluded CardExpo 2008 in Lagos.

"It is obvious from the array of solutions we have on exhibition in this expo that Remita is beyond doubt one of the most innovative solution in the country. I feel really satisfied by Remita's flexibility and the payment option the corporate organisations have before them."

The exhibition which was declared open by the Minister of State for Finance, Remi Babalola, had about 36 local and foreign exhibitors in attendance.

Adeyinka Adeyemi, Intermerc Managing Partner says he was excited by the rapid growth of e-payment in Nigeria and at the level of interest and presence most global players now show in the country. He urged local players to remain steadfast and innovative in their various products.

This year's event witnessed the attendance of captains of industries, Seasoned Managers from the financial sector, Real estate, Oil & Gas, and students from various institutions of higher learning.
