

# SystemSpecs sets for

One of the most significant events in the IT calendar of Nigeria is the annual Nigeria Software Exhibition (NISE). The year 2002 edition has been scheduled to hold between 8th & 10th of April.

Tagged NISE 2002, the exhibition will take place at MUSON Centre Lagos featuring the following:

- Seminar
- Presentation of awards and certificates.
- Pre- and post-NISE luncheon

The organisers of the exhibition, the Computer

SystemSpecs staff at the last Nigerian Software Exhibition held last year

Association of Nigeria (COAN), say the objective of NISE remains: to encourage locally developed software for commercial and export purpose; to expose consumers to packages that are available in the country; and to create a forum for foreign and local software experts to meet.

SystemSpecs promises to be part of it in grand style.

## Obaro receives award for commitment

The Association for Electronic and Computer Engineering Students (AECES) of the Lagos State University (LASU) recently gave an Award of Excellence to John Obaro, MD of SystemSpecs.

The award which was given during the AECES 2002 Week, was for his commitment to the development of software in Nigeria.

Reacting to the gesture Obaro says, "I am so delighted and honoured by this recognition especially coming from the league of the future developers of our industry."
